Spatial Disorientation for Helicopter Pilots - Confusion that Kills!

Saturday, February 7, 2009 at 1:00 pm

**Lancaster Airport
Airport Road
Lititz, PA**

**Contact: Kathy Martin
717-774-8271**

kathleen.r.martin@faa.gov

Spatial disorientation is the mistaken perception of one's position and motion relative to the earth. Many natural conditions such as clouds, fog, haze or darkness can rapidly cause a Spatial Disorientation accident. Learn how you can identify these conditions and employ procedures to avoid an accident. We'll also review some accident data and take a spin in the spatial disorientation chair. Don't Miss it!

Directions: Terminal Building.
